

HARSH PANCHAL

FullStack Engineer

📞 8487991243 ✉️ harshpanchal1243@gmail.com 🔗 <https://www.linkedin.com/in/harsh-panchal-728306262/> 📍 Ahmedabad, Gujarat

SUMMARY

Full Stack Developer with hands-on experience in building scalable, responsive, and high-performance web applications using React.js, Next.js, Node.js, and Express.js. Skilled in developing dynamic user interfaces, designing RESTful APIs, and managing backend services with MySQL. Experienced in building admin panels, e-commerce platforms, and real-time systems using Socket.IO. Strong understanding of modern JavaScript (ES6+), application architecture, performance optimization, and clean code practices. A detail-oriented team player focused on delivering efficient, reliable, and user-centric solutions.

EDUCATION

Bachelor's In Computer Applications
Doctor Babasaheb Ambedkar Open University

📅 2022 - 2025

12th Standard
National Institute Of Open Schooling

📅 2021 - 2022

10th Standard
Uma Vidhyalaya School

📅 2019 - 2020

SKILLS

FRONTEND: React.JS, Next.js , Redux, JavaScript (ES6+), HTML, CSS, Tailwind, Bootstrap ,jQuery , Material UI ,

BACKEND: Node.JS Express.JS

DATABASES: MySQL , PostgreSQL

TOOLS: Git, Github, Postman,cPanel

AI TOOLS: ChatGPT,GitHub Copilot , Claude

OTHER: Socket.IO, REST APIs

EXPERIENCE

FullStack Developer
NovaHex Solution

📅 04/2025 - Present

Focused on developing scalable and high-performance web applications using React.js, Node.js, Express.js, and MySQL. Built responsive and dynamic user interfaces, developed RESTful APIs, and created reusable components with clean and maintainable code. Collaborated with cross-functional teams to enhance application usability, optimize performance, and deliver reliable solutions aligned with business requirements.

Customer Support Executive
Tech Mahindra BPO FOR AMAZON

📅 08/2024 - 03/2025

Provided customer support for Amazon products and services, resolving queries and technical issues through chat and call channels. Maintained a high customer satisfaction rating by ensuring accurate, timely, and empathetic communication. Documented and escalated product or system-related issues to relevant teams for quick resolution. Handled large volumes of customer interactions while adhering to service-level agreements (SLAs). Developed strong communication, problem-solving, and multitasking skills — essential for team-based and technical environments

PROJECTS

Shiv Hari Hospitality

🔗 <https://shivharihospitality.com/>

Techstack : React.js, Node.js, Express.js, MySQL

Developed a fully dynamic tourism management website supporting both domestic and international travel packages. Built an Admin Panel to add, update, and manage tour packages and website content. Designed and integrated RESTful APIs for real-time data updates across the platform. Implemented a responsive UI to ensure a seamless user experience across devices.

Parking Valets System

Techstack : React.js, Node.js, Express.js, MySQL, Socket.IO

Created a real-time parking and vehicle tracking system for valet operations. Implemented live communication between valet staff, security, and administrators using Socket.IO. Developed modules for vehicle entry, allocation, and exit verification. Built secure role-based access to manage parking workflows efficiently and improved operational transparency with realtime vehicle status updates.

Shoes E-Commerce Website

Techstack : React.js, Node.js, Express.js, MySQL, Redux, Razor pay

Designed and developed a full-featured e-commerce platform for footwear sales. Implemented product listing, filtering, and cart management using Redux for state handling. Integrated the Razor pay payment gateway for secure online transactions. Built an order management system with automatic Order ID generation and payment confirmation. Developed an Admin Dashboard to manage products, inventory, and customer orders, and created a secure checkout flow while optimizing APIs for performance and scalability.

Attendance Management Software

Techstack : React.js, Node.js, Express.js, MySQL

Built an automated attendance system based on company Wi-Fi login tracking. Captured login and logout times to calculate total productive working hours automatically. Developed modules for attendance monitoring, employee reports, and leave management. Enabled administrators to view real-time attendance records and generate performance insights, streamlining HR operations by reducing manual attendance tracking
