

Harsh Panchal

FULL STACK DEVELOPER

Ahmedabad,Gujarat,India | 8487991243 | harshpanchal1243@gmail.com | [Portfolio](#) | [Linkedin](#) | [Github](#)

PERSONAL PROFILE

Full Stack Developer with hands-on experience building responsive, scalable web applications using React.js, Next.js, Node.js, Express.js, and MySQL. Experienced in developing RESTful APIs, authentication systems, admin panels, e-commerce platforms, CRM solutions, and real-time applications. Skilled in building reusable components, optimizing application performance, and integrating third-party services such as payment and delivery APIs. Focused on writing clean, maintainable code and delivering reliable solutions aligned with business requirements.

KEY SKILLS

FRONTEND : Next.js | React.js | Redux | JavaScript (ES6+) | HTML | CSS | Tailwind CSS | Bootstrap | jQuery | Material UI | Shadcn UI

BACKEND : Node.js | Express.js | REST APIs | JWT Auth | WebSockets

DATABASE : MySQL | PostgreSQL | MongoDB

DEPLOYMENT : cPanel | Docker | Kubernetes

TOOLS : Git | GitHub | Postman

AI TOOLS : ChatGPT | GitHub Copilot | Claude | DeepSeek

WORK EXPERIENCE

UNISCOPE GLOBAL | FULLSTACK DEVELOPER

Apr 2025 – Present

Focused on developing scalable and high-performance web applications using React.js, Node.js, Express.js, and MySQL. Built responsive and dynamic user interfaces, developed RESTful APIs, and created reusable components with clean and maintainable code. Collaborated with cross-functional teams to enhance application usability, optimize performance, and deliver reliable solutions aligned with business requirements.

TECH MAHINDRA BPO FOR AMAZON | CUSTOMER SUPPORT EXECUTIVE

Aug 2024 – Mar 2025

Provided customer support for Amazon products and services, resolving queries and technical issues through chat and call channels. Maintained a high customer satisfaction rating by ensuring accurate, timely, and empathetic communication. Documented and escalated product or system-related issues to relevant teams for quick resolution. Handled large volumes of customer interactions while adhering to service-level agreements (SLAs). Developed strong communication, problem-solving, and multitasking skills — essential for team-based and technical environments

PROJECTS

IMPACT GRAPHICS – CUSTOM PRINTING & DESIGN PLATFORM

TECHSTACK: React.js, Tailwind CSS, Node.js, Express.js, MySQL, Fabric.js, Redux Toolkit, Pako, Redis, JWT, Razorpay, Shiprocket

Developed a Canva-style custom printing platform using Fabric.js, enabling users to customize admin-created templates with text, fonts, backgrounds, and design elements. Built the complete e-commerce workflow with Redux Toolkit, including cart management, checkout, address selection, Razorpay payments, and delivery integration. Implemented secure JWT access and refresh token authentication with cookies and Redis-based login/session management. Developed an admin panel for managing categories, subcategories, templates, SKUs, and customer data. Optimized large design payloads using Pako compression, achieving approximately 1.12 KB cart API responses with ~50ms response time, and implemented reusable email templates for festival promotions and customer communication.

NI EVENTS AND HOLIDAYS

TECHSTACK: React.js, Tailwind CSS, Node.js, Express.js, MySQL

Developed a fully dynamic hospitality and travel platform for hotel bookings, domestic and international travel packages, and booking services. Built an admin panel for managing packages, hotels, services, and website content, with RESTful API integration for dynamic data management. Implemented responsive reusable components and SEO optimization to improve Google search visibility and user discoverability. Designed a scalable platform providing a seamless experience for both customers and administrators.

PARKING VALETS SYSTEM

TECHSTACK: React.js, Node.js, Express.js, MySQL, Tailwind CSS, Socket.io

Built a real-time parking and valet management system for vehicle entry, allocation, tracking, and exit operations. Implemented Socket.IO for live synchronization between valet staff, security, and administrators. Developed optimized RESTful APIs to efficiently handle large datasets and retrieve vehicle information dynamically without unnecessary page loads. Implemented unique vehicle tracking, hour-based parking fee calculation, and exit verification with MySQL-based data management.

RESORT CRM – RESORT MANAGEMENT SYSTEM

TECHSTACK: React.js, Node.js, Express.js, MySQL, REST APIs, Tailwind CSS, Recharts, JWT

Developed a Resort Management CRM to manage inquiries, room bookings, restaurant sales and expenses, employee activities, and daily cash operations. Implemented JWT authentication and scalable RESTful APIs with optimized database queries for efficient handling of business data and faster API responses. Built automated inquiry and booking workflows with an admin dashboard featuring Recharts for daily, weekly, monthly, and yearly reports and graphical analytics, along with automated daily report generation and email delivery to management.

SHOES E-COMMERCE

TECHSTACK: React.js,Tailwind CSS, Node.js, Express.js, MySQL, Redux Toolkit, JWT, Razorpay, Shiprocket

Designed and developed a full-featured e-commerce platform for footwear sales. Implemented product listing, filtering, and cart management using Redux for state handling. Integrated the Razor pay payment gateway for secure online transactions. Built an order management system with automatic Order ID generation and payment confirmation. Developed an Admin Dashboard to manage products, inventory, and customer orders, and created a secure checkout flow while optimizing APIs for performance and scalability.

OFFICE MANAGEMENT & CRM PLATFORM

TECHSTACK: React.js, Node.js, Express.js, MySQL, Tailwind CSS, Redux Toolkit, REST APIs, JWT

Developed a full-stack office management and CRM platform to streamline sales, BDE operations, customer management, employee management, HR workflows, attendance, task tracking, inquiries, and quotation management. Built responsive Admin and User interfaces using React.js and Tailwind CSS, developed secure RESTful APIs with Node.js and Express.js, and integrated MySQL for structured data management. Implemented JWT-based authentication and role-based access control for secure user and administrative operations.
